Re: DWSRF Funding for Water System Improvements; *Water System Name*, WSID #0000

Dear Mr. *Last Name*:

The Environmental Protection Agency has approved the *FY 20??* State of Vermont Drinking Water State Revolving Fund (DWSRF) Intended Use Plan and Project Priority List. Your project has been determined to be within the fundable range and funding is now available for your project. We have reserved \$0,000,000.00 to complete water system improvements described as <<*insert project description*>>.

Projects with funds available are required to submit for approval the enclosed project timeline. Failure to complete an action item by the approved project timeline date may result in the project being dropped from the list in order to fund projects that are ready to proceed. **Please complete the enclosed project timeline by date.**

The water system will also need to complete and submit the final design and construction loan application. Construction loan applications must be submitted by September 30, 20?? or the project funds will be bypassed.

Please contact me toll-free in Vermont at 1-800-823-6500 if you have questions in completing the project schedule, on the DWSRF Loan Program, or funding for your project.

Sincerely,

Bryan J. Redmond
DWSRF Program Specialist
