WATER SYSTEM OFFICIALS CONTACT FORM

WATER SYSTEM OWNER

This section identifies the owner of the water system. An owner is the individual or entity that is legally and financially responsible for the water system. An owner may be a municipality, fire district, homeowner's association or similar entity, or may be an individual.

If you are an individual owner, write your name on the 'Individual's First Name / Last Name' line and leave the 'Company Name' line blank. For all other types of owners, write the entity name on the 'Company Name' line and write the name of a representative of the entity who has the authority to act on behalf of the entity on the 'Individual's First Name / Last Name' line.

ADMINISTRATIVE CONTACT (Owner's Authorized Representative)

This section identifies the person authorized by the owner to act on the owner's behalf in all matters regarding the water system and to replace the owner as the individual to receive all communications regarding the water system. Note: The system owner is not required to designate a separate representative. If there is no administrative contact designated, all correspondence will be directed to the system owner.

OPERATOR TO RECEIVE CORRESPONDENCE

This section identifies the water system's certified operator who will receive copies of selected correspondence and other communications sent to the owner or owner's representative. Note: Each system must designate one operator to receive mailings. A certified operator is an individual whom the owner has placed in responsible charge of all quality, quantity, process control, and system integrity decisions involving public health, treatment, storage, distribution, and standards compliance. The operator must hold a valid certification equal to or greater than the classification of the water system.

In the event of an emergency, the Division will contact the Operator designated to receive correspondence and the system's Owner or Administrative Contact.

ADDITIONAL OPERATOR

This section only applies to systems with more than one operator. This section identifies certified operators who have been placed in responsible charge by the system owner but who will not receive correspondence directly from the Division. The operator must hold a valid certification equal to or greater than the classification of the water system. If necessary, please list additional operators and their contact information on a separate sheet and attach that information to this form. If you have questions regarding operator status, please contact Matt Guerino at (802)241-3415.
